

IT'S A *BREEZE* TO WORK WITH JEWELL PROFESSIONAL

WE KNOW DENTISTS AND WE'LL HELP YOU SECURE THE INSURANCE PROTECTION YOU NEED ...

It's important for you and your practice to have the right coverage and with the right people. That's why Jewell Professional Insurance offers the vital coverage and support for your practice through our long-standing partnership with Fortress. Fortress is a specialty provider owned and operated by people like you—dentists. And since Fortress only insures dentists, your premiums are not inflated by the risks incurred by other medical specialties. Use our expertise to coordinate your office package, workers compensation and all of your dental practice insurance policies.

Jewell Professional Insurance has an experienced dental support team that is always here with help.

Call today to speak with BRENDA JEWELL about coverage for your practice.
